

CITY BRAND

NOW
THEN

***ABOUT
US***

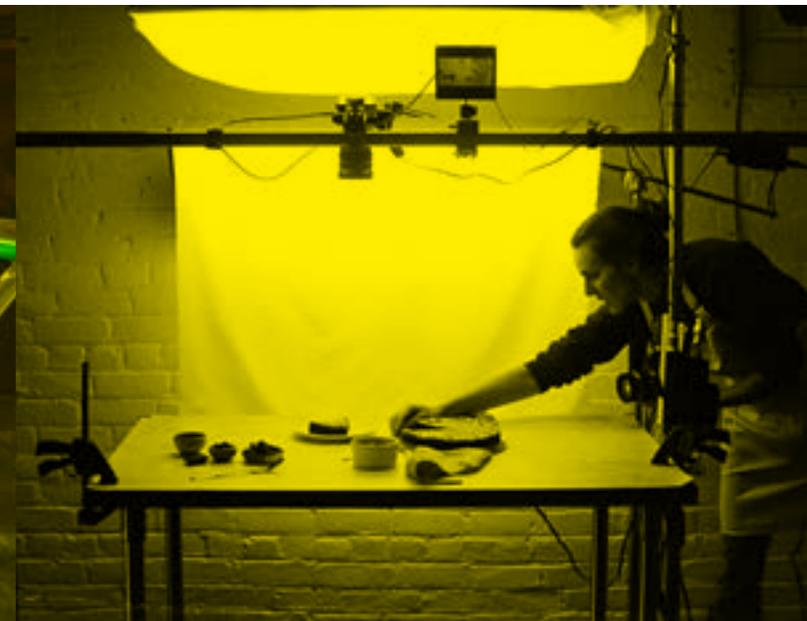

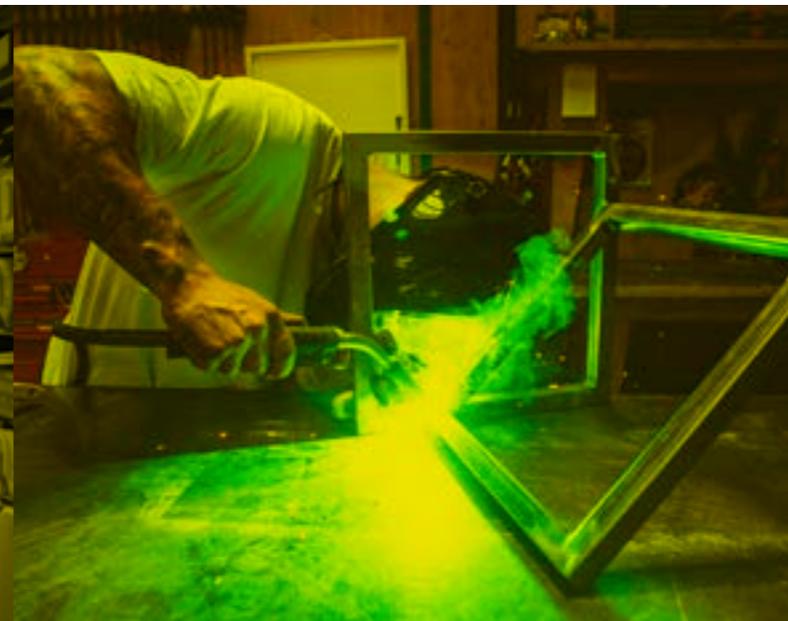

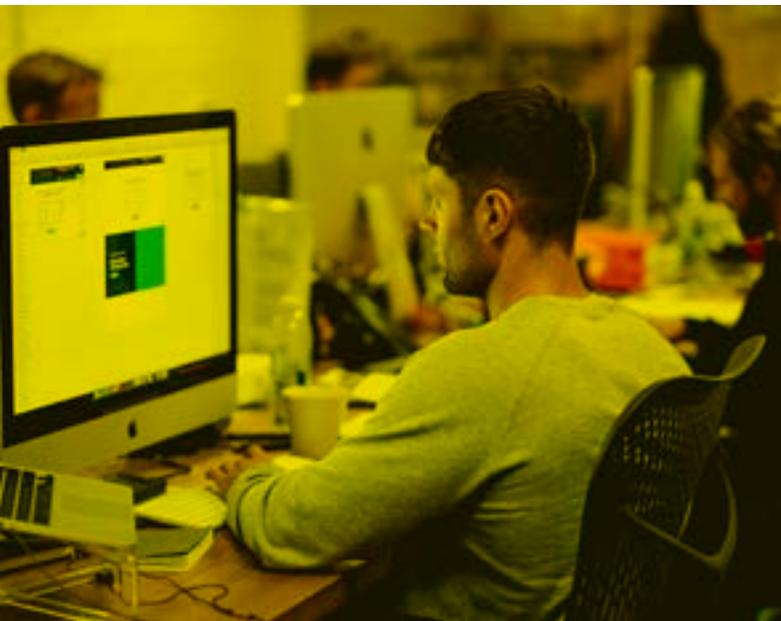

We work with creative agencies to **engage** and **inspire** audiences, utilizing non-traditional & guerrilla marketing methods to **activate** and **elevate** brands.

EXPERIENCE

Our team has extensive marketing experience gained across OOH, Events, Digital and Recruitment sectors with supporting design, tech and logistics expertise.

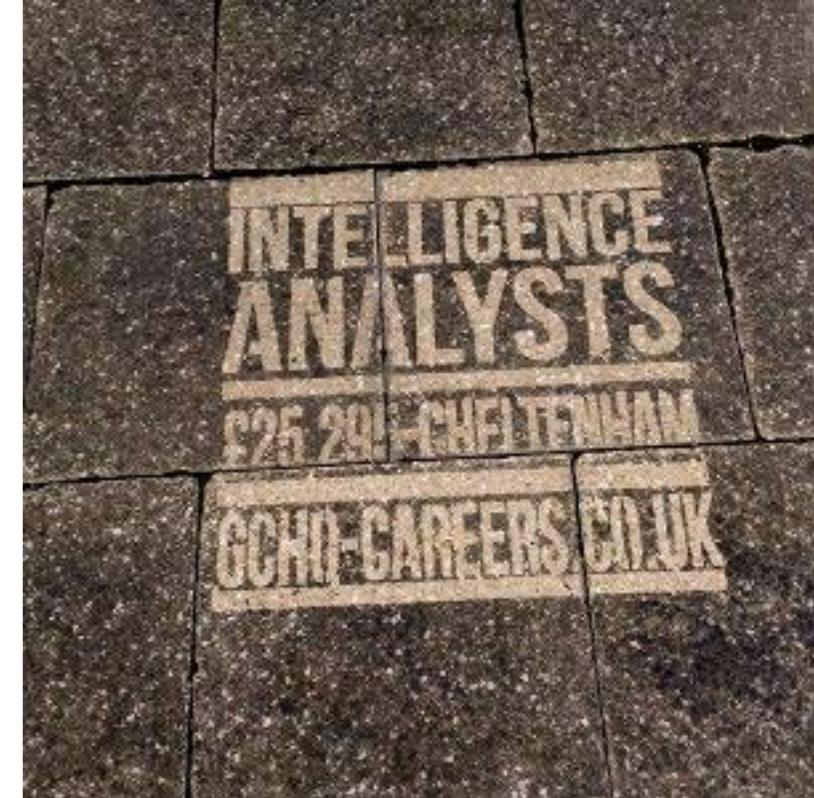

DIRTY HANDS

Unlike most people, we try and get everything done in-house. With use of our large format printers, fabrication team, creatives and digital designers, we are able to offer a full service quickly and cost effectively.

CLEAN ADS

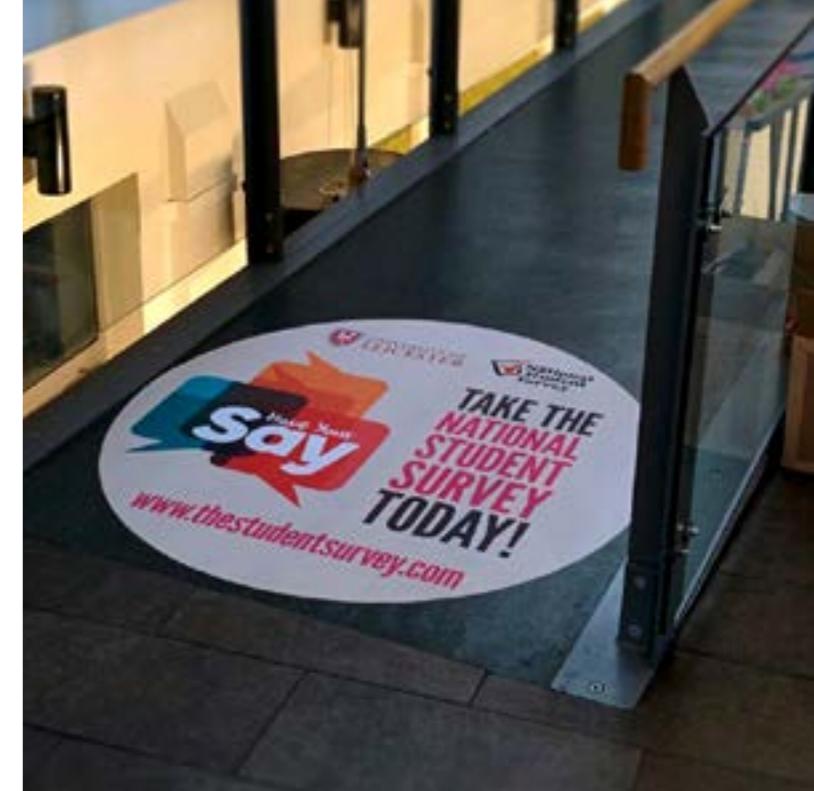

No chemicals, spray paints or substances other than water are used, and the ads will naturally fade over a period of weeks/months.

FLOOR GRAPHICS

Our aluminium indoor & outdoor floor graphics conform to any surface, from cobble-stone to carpet and even building walls! We also use non-toxic ink to ensure this product can be 100% recycled with other aluminium waste.

The whole surface is textured and is anti-slip certified to ensure high levels of safety in any weather.

DIGITAL DEFENDER

Equipped with solar & battery powered screens, the Digital Defender can go anywhere without the need for external power, with the bonus of being able to play content on the move.

DIGITAL PICK-UP

Fitted with a super-bright P4 LED screen and a full PA system, our digital pick-up is great for high impact events. We can also add graphics to the bodywork to further compliment your campaign.

BESPOKE BUILDS

WHERE
WILL
YOUR
GENIUS
STRIKE?

From custom light boxes, VR experiences and video walls to full event stand spaces, we offer bespoke builds that will make you stand out from the crowd.

We also provide secure storage and logistics services nationwide.

ADVERTICALS

Adverticals are a simple, innovative column or post surround that can deliver high impact visual advertising to passing vehicles and consumers.

Suitable for a wide range of uses from directional signage to event promotion, store openings, seasonal offers, product advertising or road safety.

PROMO STAFF

Over the past 10 years we've worked on creating a network of regional promotional staff, delivering street teams, event staffing and even choreographed flash mobs.

We can equip our staff with branded uniforms, distribution material and iPads for custom data capture forms if needed.
